

New Oil Separator Cartridge K096383 for DAF Applications

Compressed air systems require clean, dry air to work efficiently and safely. Knorr-Bremse cartridges provide proven technology to fulfil these requirements. The Knorr-Bremse Oil Separator Cartridge (OSC) is a further development of the conventional desiccant cartridge. In addition to the usual air drying function, it also filters out oil contamination ensuring optimum protection of the compressed air braking system.

1st step: removal of oil particles & aerosols

2nd step: air drying

New DAF Oil Separator Cartridge K096383

Cartridges with the latest Knorr-Bremse technology are now available for DAF applications. This cartridge is a modification to the Oil Separator Cartridge with M39x1.5 right-hand thread. The modification involves the addition of a 30 mm hexagon nut on top of the cartridge.

Due to the limited access on the vehicle, the 30 mm hexagon nut on top of the cartridge simplifies disassembly and assembly.

DAF Part No.	Knorr-Bremse IAM Part No.	Technical Specification
1925363	K096383	OSC, M39x1.5 right-hand thread, with 30 mm hex. nut, height 178 mm

Note: The listed cross-reference to the manufacturer's number is only to help with the identification of the relevant IAM part number.
